Key	Summary	Upgrade notes	Component/s
NXP-13275	NXP-8659 Shorten path length for nuxeo-platform-document-routing	The following Maven artifact ids and group ids have changed: BEFORE: \<groupId\>org.nuxeo.ecm.platform\</groupId\> \<artifactId\>nuxeo-platform-document-routing-api\</artifactId\> \<artifactId\>nuxeo-platform-document-routing-core\</artifactId\> \<artifactId\>nuxeo-platform-document-routing-web\</artifactId\> \<artifactId\>nuxeo-platform-document-routing-dm\</artifactId\> \<artifactId\>nuxeo-platform-document-routing-dashboard\</artifactId\> \<artifactId\>nuxeo-platform-document-routing-default\</artifactId\> \<artifactId\>nuxeo-platform-document-routing-test\</artifactId\> AFTER: \<groupId\>org.nuxeo.ecm.routing\</groupId\> \<artifactId\>nuxeo-routing-api\</artifactId\> \<artifactId\>nuxeo-routing-core\</artifactId\> \<artifactId\>nuxeo-routing-web\</artifactId\> \<artifactId\>nuxeo-routing-dm\</artifactId\> \<artifactId\>nuxeo-routing-dashboard\</artifactId\> \<artifactId\>nuxeo-routing-default\</artifactId\> \<artifactId\>nuxeo-routing-test\</artifactId\>	Workflow
NXP-13326	Clean up WebDAV code	- nuxeo-platform-wi-backend has been removed. - nuxeo-generic-wss-handler has been renamed to nuxeo-wss and is now a Nuxeo bundle. - nuxeo-generic-wss-front has been renamed to nuxeo-wss-front.	WebDAV / WSS
NXP-13346	Add API to invalidate user profile cache	Added UserProfileService#clearCache()	User preferences/Profile
NXP-12603	Add the nuxeo-style-guide as default addon	Renamed org.nuxeo.styleguide:nuxeo-styleguide to org.nuxeo.style:nuxeo-style-guide	UI Style Guide
NXP-13411	CSS > Rename iconImage rule	Removing .iconImage css class. Use .icon instead, + .smallIcon if you need to force a small size (16px).	Style & CSS
NXP-11265	Tree > Remove the open state of icons	No "open/expanded state" anymore for icons in the tree. Only one icon represents a folder(ish) type.	Style & CSS
NXP-13241	When I Ctrl+click on DAM Top Menu Bar Link, new conversation is not started	Ctrl+Clik on Dam Top Menu link now starts a new conversation	DAM, Seam/JSF UI
NXP-13146	Document are not displayed in IE 11	Nuxeo now works on IE11	Seam/JSF UI
NXP-12787	Activate SafeEdit on toggleable layout widget	safeEdit now works on multiple forms in the same page	Layouts & Widgets, Seam/JSF UI
NXP-13195	Non-SNAPSHOT Marketplace package install should not force other packages upgrade to SNAPSHOT version	Upgraded to org.nuxeo.connect:nuxeo-connect-client:1.4.13	Packaging
NXP-13390	Improve SendMail Operation to expose bcc,replyto,cc	SendMail opération parameters list has changed : - "isStrict" see below - "from" waiting a String. Accepted values: email address, user with prefix, group with prefix, user without prefix (if isStrict is false) group without prefix (if strict is false). - "to" waiting a StringList object (accept String with values separated by commas,	Automation, Notifications

Key	Summary	Upgrade notes	Component/s
		List<String>, String[] in the context of the chain definition using adapters). Accepted values: email address, user with prefix, group with prefix, user without prefix (if isStrict is false) group without prefix (if strict is false). - "cc" values waited are same as fromList - "bcc" values waited are same as fromList - "replyto" values waited are same as fromList	
NXP-13250	NXP-8659 Shorten path length for nuxeo-platform-localconfiguration	The following Maven artifact ids and group ids have changed: BEFORE: <groupId>org.nuxeo.ecm.platform</groupId> <artifactId>nuxeo-platform-localconfiguration-simple</artifactId> <artifactId>nuxeo-platform-localconfiguration-web</artifactId> AFTER: <groupId>org.nuxeo.ecm.localconf</groupId> <artifactId>nuxeo-localconf-simple</artifactId> <artifactId>nuxeo-localconf-web</artifactId> The Java various classes under the packages: org.nuxeo.ecm.platform.localconfiguration.simple.* have been renamed to a flat package: org.nuxeo.ecm.localconf A few operation classes have been renamed (but their operation id is unchanged): BEFORE: org.nuxeo.ecm.platform.localconfiguration.simple.operations.PutSimpleConfigurationParameter org.nuxeo.ecm.platform.localconfiguration.simple.operations.PutSimpleConfigurationParameters org.nuxeo.ecm.platform.localconfiguration.simple.operations.SetSimpleConfigurationParameterAsVar AFTER: org.nuxeo.ecm.localconf.PutSimpleConfParam org.nuxeo.ecm.localconf.PutSimpleConfParams org.nuxeo.ecm.localconf.SetSimpleConfParamVar	Local Configuration
NXP-13386	Fix NPE for suggestion widgets within list widgets	suggestion widgets now work in list widgets	Layouts & Widgets
NXP-13322	Provide a more flexible way to specify the id to be submitted in Select2 widgets	id submitted by suggestion widgets can now be fully customized	Layouts & Widgets
NXP-13103	Reset JSF components states when selecting a DAM asset	JSF action listener #{jsfResetActions.resetComponentsFor} can be used in actions that need to reset all components in a given same JSF naming container, set using #{jsfResetActions#setBaseComponentId}	DAM, Layouts & Widgets
NXP-13122	Support of uuid idtype on PostgreSQL is broken	See documentation http://doc.nuxeo.com/x/fwQz if you use uuid idType	Core SQL Storage
NXP-13179	Migrate largetext field to clob field using XSD definition	- largetext definition removed from default-repository-config.xml - now used nx:string whose size is 999999999 (=CLOB at database level) for large text fields	Core
NXP-13125	Automatically retry async listeners if failing due to concurrency	A listener can now have a retryCount <listener ... retryCount="1"> </listener> This is the number of times that the listener will be re-executed if it failed due to a ConcurrentUpdateException raised by the low-level layers. The default is 1.	Core
NXP-10148	Allow filtering of exported operations	Added "deprecatedSince" and "addToStudio" annotations for operations documentation ("since" annotation was already avalailble)	Automation
NXP-13268	NXP-8659 Shorten path length for nuxeo-platform-annotations	The following Maven artifact ids and group ids have changed: BEFORE: <groupId>org.nuxeo.ecm.platform</groupId> <artifactId>nuxeo-platform-annotations-api</artifactId> <artifactId>nuxeo-platform-annotations-core</artifactId>	Annotations
